

## Expression of Interest: Data Hub Project

### Overview

MSF-Germany (Ärzte ohne Grenzen) is seeking qualified vendors to provide expert consulting services for the development of a centralized data platform.

### Project Objectives

We aim to establish a foundation for enterprise data management by:

- Design and build the Data Hub platform using Azure cloud services
- Developing a robust data governance framework

### Consulting Services Required

We are seeking expertise in:

- Designing and implementing the architecture for the centralized data platform hosted using Azure cloud
- Establishing a robust data governance framework

### Project Approach

The selected vendor will work collaboratively with our internal technical and business team members.

### Ideal Partner Profile

We are looking for partners with:

- Proven experience in data platform implementation projects
- Expertise in Azure cloud environments
- Demonstrated capabilities in data governance
- Strong background in business intelligence and analytics
- Ability to provide advisory services and knowledge transfer

### How to Respond

Interested vendors should submit their interest via email to [shaun.gaji@berlin.msf.org](mailto:shaun.gaji@berlin.msf.org) (Project Manager).

Selected companies will be sent an NDA to receive the detailed RFP with complete specifications. Please include "Data Hub Consulting Services" in the subject line of your email.

### Selection Process

After receiving the RFP, vendors will have the opportunity to submit a formal proposal. Shortlisted vendors will be invited for presentations and further discussions.

**Note:** This is a high-level overview. A comprehensive RFP with detailed requirements will be provided to interested parties after signing an NDA.
